SUMMARY

Frontend Web Developer passionate about building high-performance, responsive, and accessible websites that deliver exceptional user experiences. Adept at translating complex UI/UX designs into clean, efficient code using modern frameworks and tools. Proven ability to collaborate across teams, solve problems creatively, and bring digital visions to life through pixel-perfect implementation and seamless interactivity.

PROFESSIONAL SKILLS .

- **Languages :** JavaScript, CSS, HTML
- **Frameworks: React,** Bootstrap, Tailwindcss, Django(Basics)

WORK EXPERIENCE

Evolve Innovative Solutions (Lahore) **September 2025 – (Present)**

Working as a Frontend Web Developer on **multiple web-based projects**, focusing on building modern, responsive, and scalable user interfaces. Contributed to the development of **several websites and web applications** across different domains using **HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React**. Involved in designing and implementing reusable UI components, improving layout responsiveness, and enhancing overall user experience. Participating in continuous learning and applying modern frontend best practices to improve performance, maintainability, and code quality.

Evonic Soft Bahawalpur: **April 2025-July 2025**

Worked on 2–3 real-world website projects during a 4-month internship period. Developed responsive web pages using HTML, CSS, Bootstrap, and JavaScript. Implemented interactive features to improve user engagement and functionality. Gained hands-on experience in team collaboration, requirement analysis, and project-based development. Improved problem-solving skills and understanding of professional development workflows.
