PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable web and **mobile app**lications across **MERN**, **React.js**, **Node.js** and **Python**/**Django**. Experienced in **real-time systems**, secure **authentication**, **payment integrations**, **mobile app** workflows, and **AIpowered** features. Delivered **marketplace**, **referral**, **e-learning**, monetization, and on-demand service platforms for business and consumer use cases.

KEY SKILLS

- **Primary Stack: MERN**, React.js, Node.js, MongoDB, Django**.**
- **Product Areas: Marketplaces**, e-**learning** systems, Booking System, Agencies, on-demand service applications
- **Core Engineering: REST APIs**, **real-time systems**, **authentication**, **payments**, **Firebase**, **Socket.IO**, **Django Channels** • **AI-Assisted Development: Claude**, **ChatGPT**, **GitHub Copilot**, **Gemini**, prompt-based debugging, code review support
- **Cloud and Data: AWS**, **MongoDB**, **PostgreSQL**, **SQLlite.**

ROLE HIGHLIGHTS

- Built **cross-platform** mobile and **web applications** using **React**, **Next.js**, **Django**, **Node.js**.
- Delivered **real-time** features including chat, notifications, **l** analytics, and updates using **Socket.IO**, **Firebase**, and **Django Channels**.
- Implemented payment and transaction workflows including **Stripe** and crypto-based payment support.

TECHNICAL SKILLS

- **Frontend: React.js**, **JavaScript**, HTML5, CSS3, **Tailwind CSS**, Bootstrap.
- **Backend: Node.js**, **Python**, **Django**, **REST APIs**, **Socket.IO**, **Django Channels**, **JWT authentication**.
- **Databases: MongoDB**, **PostgreSQL**, **MySQL**, **SQL**
- **Cloud & Tools: AWS**, Git, GitHub, **Firebase**
- **AI Development Tools: Claude**, **ChatGPT**, **GitHub Copilot**, **Gemini**

PROFESSIONAL EXPERIENCE

Frontend Engineer | Evolve Innovative Solutions, Lahore | Sep 2025 - Sep 2026 | Lahore, Pakistan

- Developed frontend components and integrated **REST APIs** for **MERN**-based **web applications** across business and advertising use case
- Worked with **Node.js**, **React.js**, **JavaScript**, Webpack, jQuery, **MySQL**, **MongoDB**, and **AWS** to support scalable application delivery.

Frontend Engineer Intern | Evonicsoft, Bahawalpur | April 2025 - Aug 2025 | Bahawalpur, Pakistan

- Worked on 2–3 real-world website projects during a frontend development internship.
- Developed responsive and user-friendly web pages using HTML, CSS, Bootstrap, and JavaScript.
- Implemented interactive frontend features to improve website functionality and user engagement.
- Strengthened problem-solving, debugging, requirement analysis, and teamwork skills through real-world development projects.

SELECTED PROJECTS

HoteBooking Website | Booking Platform

Tech Stack: Django with Channels, SQLlite, AWS, JavaScript, Html, Bootstrap.

- Built a **full-stack hotel booking website** with features for browsing hotels, viewing room details, checking availability, and managing bookings.
- Implemented **user authentication and authorization**, including secure registration/login, role-based access, booking history, and protected user/admin functionality.
- Developed **hotel, room, inventory, and booking management** using Django backend and database integration, with a responsive JavaScript and Bootstrap frontend.

Medical Billing & Inventory Management System | Healthcare Management Platform

Tech Stack: Django, Python, JavaScript, HTML, CSS, Bootstrap, SQLite.

- **Built a full-stack medical billing and inventory management website for managing medicines, stock, sales, invoices, and dayto-day pharmacy operations.**
- **Implemented user authentication and authorization, including secure login/logout, role-based access, protected pages, and user management functionality.**
- **Developed an interactive dashboard with medicine inventory, stock tracking, billing and sales management, CRUD operations, database integration, and a responsive JavaScript and Bootstrap frontend.**

HungerHUt | On-Demand Food Ordering system

Tech Stack: JavaScript, Html, Bootstrap, CSS

- Built a responsive **food ordering website** that allows users to explore food items, browse restaurant offerings, and place orders through an intuitive interface.
- Developed interactive **menu, food listing, cart, and ordering features** using JavaScript with a responsive Bootstrap-based frontend.
- Implemented a user-friendly interface with **responsive layouts and smooth navigation** to provide a seamless food ordering experience across desktop and mobile devices.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
The Islamia University of Bahawalpur | Oct 2021 - May 2025

CGPA 3.10/ 4.0

ADDITIONAL INFORMATION

Languages: English (Fluent), Urdu (Native)
Professional Strengths: Problem solving, fast learning, team collaboration, adaptability, clear communication
